

Lorenzo Varlaro
STUDENT OF THE MONTH
Mountain View High School
November 2021

Senior

Mountain View High School is proud to recognize Lorenzo Varlaro as our November 2021 Student of the Month.

Lorenzo is a current senior at Mountain View High School. He is an executive board member of the Ambassadors Club. In Ambassadors, he is the head of the Mental Health Committee, which organizes events such as Spartans Pause once a month and Mental Health Awareness Week once a year. The aim of events like these and the committee as a whole is to normalize mental health struggles and conversations about those struggles. For him, improving the mental well-being of even a single student is a huge success. He has been a member of Ambassadors since the spring of his sophomore year, and he feels as though he has been able to bring a sense of humor and creative thinking to the club. Although Lorenzo has been out of school for all of September and October due to brain surgery, he is confident in the future of the club this year and is proud of what it has already accomplished!

Ms. Camarillo, the head of the Ambassador's program, highlights Lorenzo's ability to make instant connections with people with his easy-going personality and open-minded outlook. She recognizes Lorenzo as an empathetic, honest, authentic, and hilarious student leader who has made a great impact on the Mountain View High School campus!

Lorenzo's favorite class at MVHS is Commercial Art, where he learns to apply creative techniques to the world of business and branding.

Outside of school, Lorenzo is very passionate about art, and his hobbies include music production, graphic design, and video production. He is interested in art as a field of study, including music technology and graphic design.

Congratulations Lorenzo!
