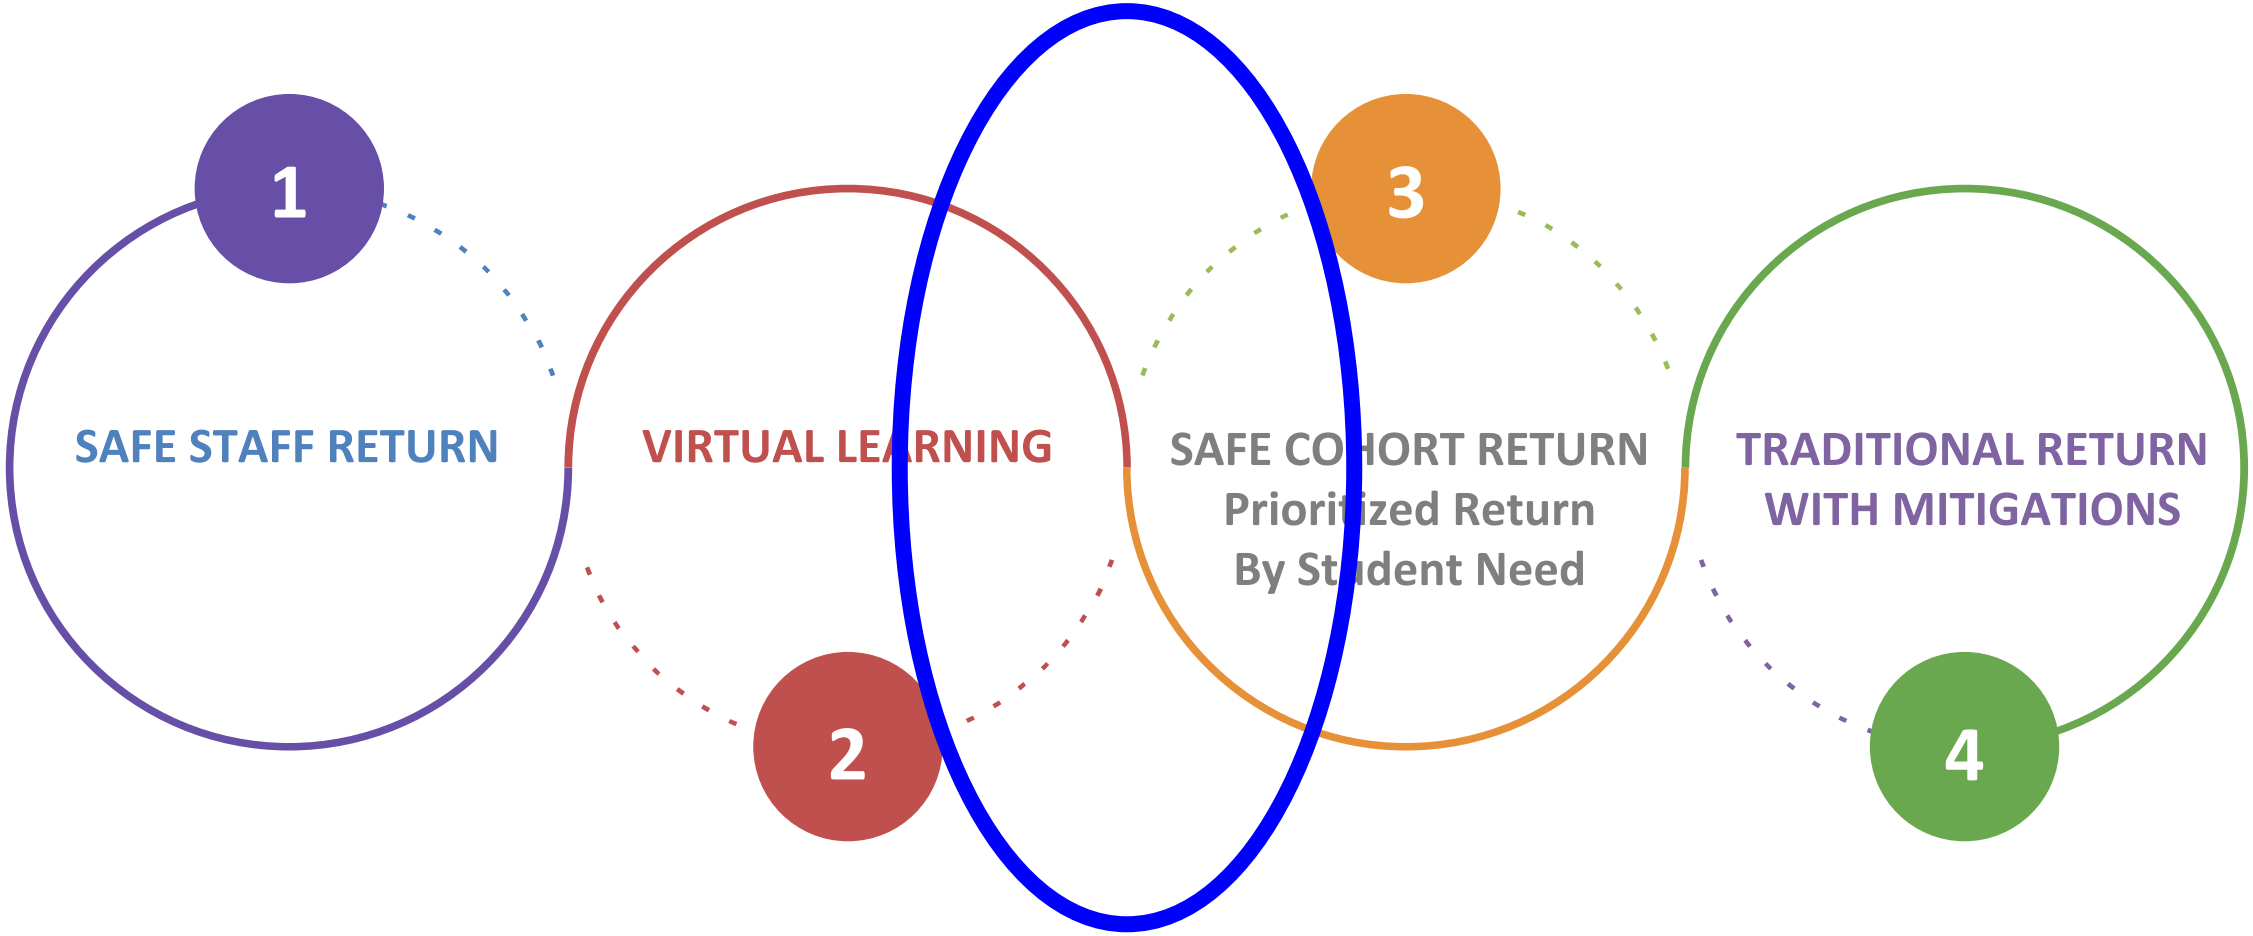
MVLA Reopening: Phased In Return

Continual Monitoring of Public Health Changes



California Update

Governor's Comments:

- Safety of Staff and Students Foundational
- Growing evidence the right precautions can stop the spread-especially in Elementary Schools
- Designed to build confidence, bring back youngest (TK-2) and most vulnerable students first (including English Learners and students with disabilities or social emotional needs)
- Recognizes younger students are at lower risk
- Recognizes need to maintain distance learning option for students

California Update

Governor's Four Pillars:

1. **Funding to Support Safe Reopening** - $450/per student, prioritizing TK-2 and high need students
2. **Safety and Mitigation Measures for Classrooms**
   A. Testing - Will provide (at ⅓ cost) weekly testing in areas with high rates of transmission
   B. Masks - Surgical masks for all students and staff, distributed free of cost w/ statewide contracts
   C. Contact Tracing - School Portal for Outbreak Tracking (**SPOT**) with State staff deployed to assist with tracing
   D. Vaccinations - School staff prioritized through the spring of 2021

3. Oversight and Assistance - Dr. Naomi Bardach, a UCSF pediatrician and expert on school safety, will lead cross-agency team of representatives from public health, Cal/OSHA and educational agencies to provide hands-on support to schools with safety plan implementation.

4. Transparency & Accountability- State dashboard will enable all Californians to see their school's reopening status; web-based "hotline" will empower staff/parents to report concerns.
