

# Summer School 2022 Summary

MVLA Board Presentation  
August 8, 2022

# Summer School Purpose

- Helps more of our students graduate on time
- Allows more students to graduate A-G eligible
- For our students with IEPs and Extended School Year Services, summer school is crucial to prevent the regression of skills learned during the year

# Stats on This Year's Summer School

- 50+ Staff Members – Teachers, Paraprofessionals, Therapists, Etc.
- 18 Classes - including A-G core content classes, Special Education support classes (incoming grade 9- Adult Transition Program) and Credit Recovery for graduating seniors

Overall Enrollment Data:

# Detailed Enrollment Data

How district students utilized Summer School classes this year:

(Note: the numbers do not foot exactly, as we are a small program and there is some movement within classes, some flexibility for Special Education students and a Credit Recovery option that allowed students to make up missing content area pieces to allow for meeting graduation requirements.)

# Summer Graduates

Thank you to Dr. Latina Wharton and Michael Rasmussen who helped make it possible for **16 students to be summer graduates.**

The pilot of a Credit Recovery Model was very successful. This Model allowed the district to offer partial credits across various subject areas to seniors who would otherwise need to return for a 5th year.

## Impact on Alta Vista's Graduation Rate:

- ★ 2021-2022 Graduation rate without credit recovery option: 59%
- ★ Actual 2021-2022 Graduation rate: 71%

# Summer Academy – A Bridge Program for Incoming Freshmen

## Objectives:

1. Helping breaking down students' fear of numbers
2. Boost their literacy skills
3. Help them not feel intimidated on a high school campus
4. Help them learn how to *do* school through their day to day work

Additionally, wanted to allow them to learn about the resources available on campus

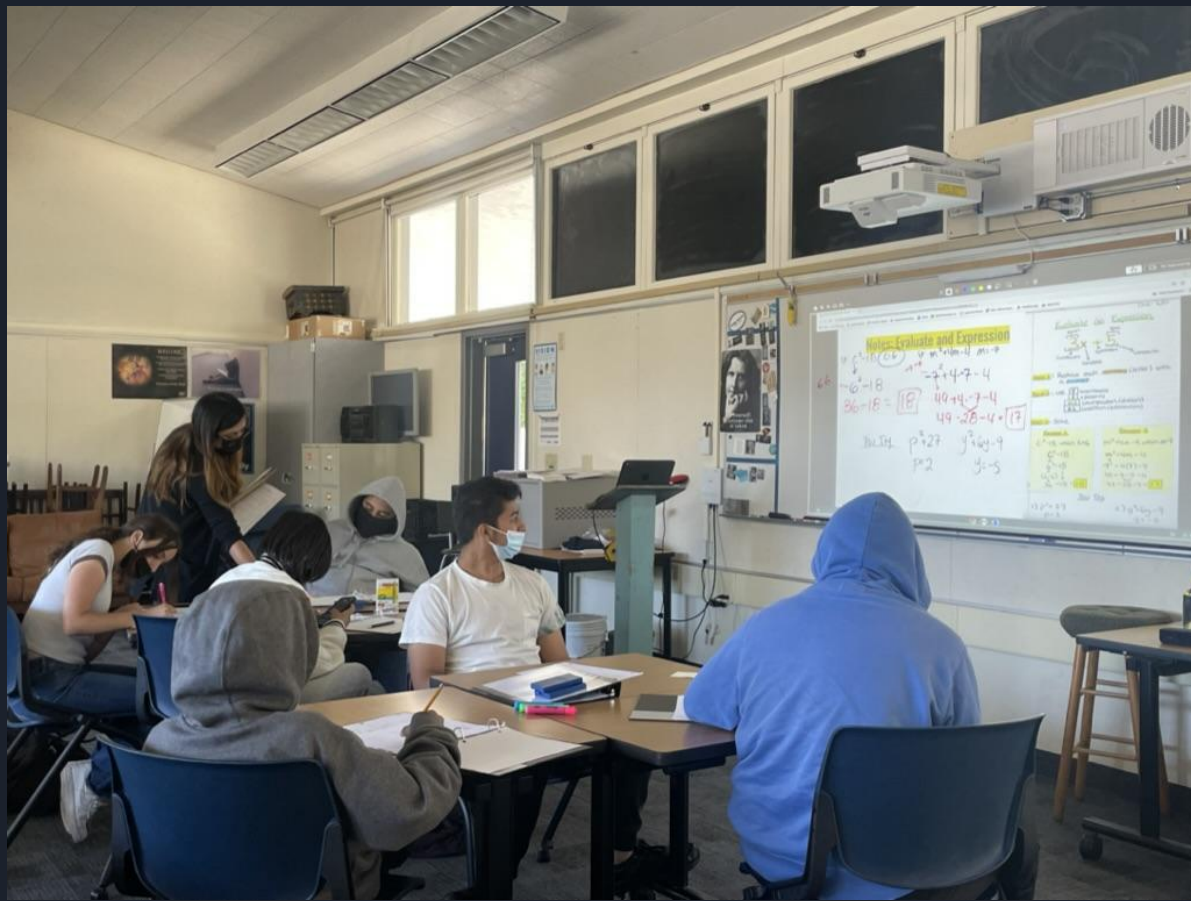

1/2 Day focusing on Literacy –

Lexia PowerUp & Reading with Relevance

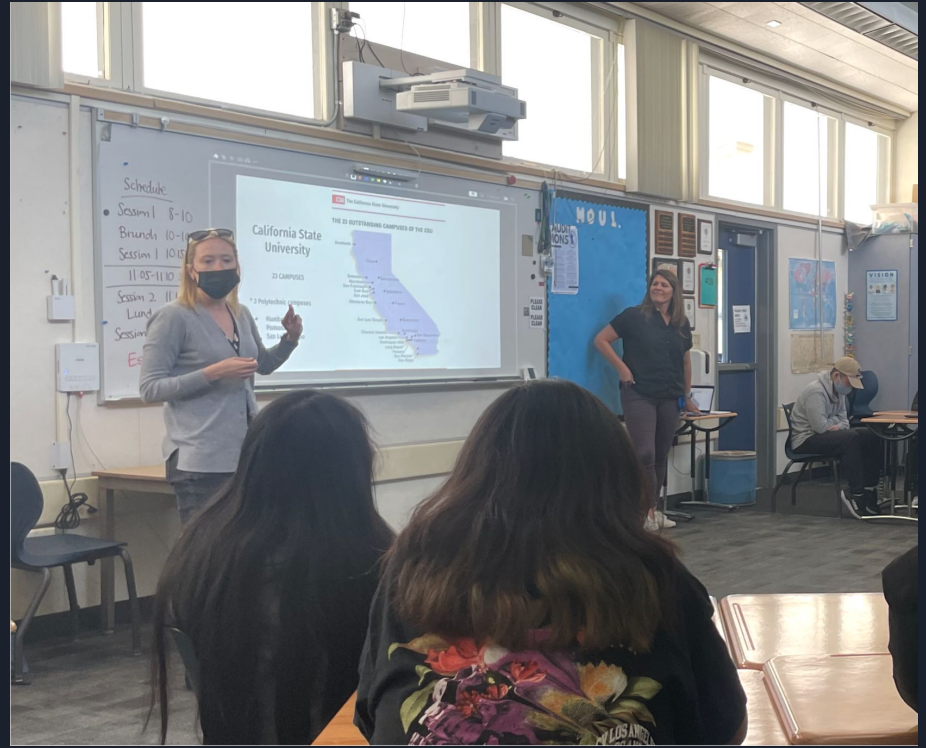

1/2 Day focusing on Math

Access to Social-Emotional Learning curriculum

***“I really liked [the summer academy] because it gave me a head start in math because math is not really my strong subject and it gave me more experience to get to know algebra”***

# Summer Academy Student Feedback

- My experience in class was good. I met new people and new friends, i got to learn the campus a little bit more. **I got to learn new skills that will help me in high school.** I think my summer academy experience was good.
- At first coming back from my Guatemala trip I didn't want to come because I thought it was going to be boring. I ended up liking it a lot and I met a lot of really nice people and even made new friends. **I feel a little bit more confident in english and math especially since we got more individual attention in class.**
- **Class was very helpful! I was able to make some new friends so Im not alone next year.**
- **I got to learn and evolve both my math and ela skills, learning more on how to solve one step equations, or how to explain short films and books with better and clearer information**
- It was pretty fun and **I enjoyed learning in this class!!**
- Class was really good especially math. **Im kinda bad at math but it seemed really easy to navigate!!**
- I liked it.

# Special Thanks

Just some of the people who helped make the summer school possible!
