Freestyle student comment after sharing creative activities with Japanese visitors:

***I gained a new appreciation for the resources and supplies we have here, as often I forget that these aren't common place. The Japanese students were so awed by all our projects that I got a new perspective from that.***

## The Future?: A.I. at Freestyle

- Goal is to embrace and integrate AI with our creative process
- Discovery Process - led mostly in English for now
  - Greate for brainstorming, visualizing, and initiating ideas
  - AI streamlines the mechanical part of writing (spelling, grammar, etc.)
  - More time towards commenting on content and ideas
- Media Classes are still exploring how best to integrate AI
  - Still require knowledge of production process
  - Be able to recognize AI media from real media

Much is still to be learned about AI and its application to the Arts. Alumni are reporting back on their studies about AI and art.

# The Future?: Student enrollment

Freestyle Academy Applicant History since 2011

## Why lower numbers? Possibly

- More CTE and program choices pulling from pool of students
- Misconceptions about Freestyle
- LAHS Transportation
- Other?

# Changes for 2024 and beyond

- Change to Period 1, 2, 3  
instead of Period 2, 3, 4 (pros and cons)
- Recruit with usual Open House and Exhibitions but more personal visits
- More Music Productions with completed Recording Studio
- More Studio Productions with completed Green Screen and Photo Studio
