

Carson Gamble
STUDENT OF THE MONTH
Middle College
March 2024

Senior

Middle College is proud to recognize Carson Gamble as our March 2024 Student of the Month.

We are happy to present Carson Gamble as the MVLA Student of the Month for the Middle College Agency Cohort. Carson was accepted to Middle College during his junior year after having spent his first two years at Los Altos High School. Carson has become an amazing addition to our classes, the Middle College program, and the larger community. In classroom discussions and group projects, Carson is known to be very thoughtful and engaging. He often assumes the role of a leader, and he ensures that his peers are participating and that everyone's voice is heard. For example, in our most recent budget project for Economics, Carson noticed that one group member struggled with a difficult part of the project and he offered to help. Carson not only guided his classmate through the project and offered tips on how to improve the elaborate spreadsheet, but he demonstrated patience and kindness throughout the interaction. This example serves as one of many, as Carson is known in our community to be a very valuable group member, classmate, and friend. Additionally, Carson always has a positive attitude and a smile on his face. He brings a lot of joy and enthusiasm to both of our classes, and we are very appreciative of his character.

In addition to his engagement in class, Carson also dedicates many hours outside of school to various extra-curricular activities. Many of those hours are focused on his love of soccer. Carson is the captain of the Los Altos team and he is the starting goalkeeper. He also plays on a premier club team and he plans to continue playing soccer in college. When he is not on the field or in class, or studying, Carson can be found at Philz coffee where he is a master barista.

Carson plans to attend LeTourneau University in Texas to pursue a history degree and his single subject credential. His goal is to one day become a university history professor. We are very proud of his growth and successes, and we are excited to hear more about his future achievements.
