

Billy Peir
STUDENT OF THE MONTH
Mountain View High School

April 2022

Junior

Mountain View High School is proud to recognize Billy Peir as our April 2022 Student of the Month. Billy is a current junior involved in activities like ASB, varsity baseball and basketball, and Math Mission Club at MVHS.

Billy has been in ASB for two years and stands out as one of the most dedicated students on the Activities Committee. He will serve as the ASB Secretary/PR for the next school year. Billy's ASB advisor, Ms. Johnson, describes him as a friendly, inclusive, compassionate, and academically talented student. He is a hard worker within both his school work and his community. Billy is the type of student who is gracious and humble while also being academically skilled. He works well with his peers and teachers and is a meaningful member of our MVHS community as a student and as a young individual.

One of Billy's most significant commitments is baseball. He is currently the MVHS Boys Varsity Baseball team captain and has played baseball since he was four years old. He started on varsity as a sophomore and is the first non-senior captain in Spartan baseball history! Earlier this year, Billy was selected to give a Ted talk for the MVHS Tedx event. He talked about a baseball player named Munenori Kawasaki and the inspiration he has given Billy as a player.

Billy serves as the secretary of Math Mission Club, a club where MVHS students volunteer to tutor underserved children in Bay Area middle schools. He was part of the club's founding board and is currently tutoring an 8th grader in Geometry at Blach Middle School.

Billy's favorite class is math - inspired by his current Calculus teacher, Mr. Migdow. Looking forward to the future, Billy is interested in studying data science and statistics in college. He credits his interest in data statistics to his love of baseball, which heavily involves taking statistics. A 'Moneyball' summer program he participated in for sports analytics at the Wharton School of the University of Pennsylvania also furthered his interest in data science and statistics.

Outside of school, Billy is part of the MVLA Service League of Boys, a local volunteer service league that focuses on philanthropy to foster community responsibility. This year, he serves as the co-President-Elect of the Service League of Boys.

Congratulations Billy!
