Benjamin Olson

STUDENT OF THE MONTH

Mountain View High School

December 2022

Senior

Mountain View High School is very proud to recognize Benjamin Olson as our December Student of the Month!

Ben Olson, a senior at Mountain View High School, grew up in San Diego and prior to moving to Mountain View, also lived in Guam because his Dad is a Pathologist for the Navy. Ben started MVHS his sophomore year and shared what he likes most about MVHS is how nice everyone is, especially the teachers who are "absolutely fantastic"! Ben is currently taking AP Government, Adv Computer Science, App and Game Design, AP Literature, AP Physics C while also taking Differential Equations through concurrent enrollment at Foothill College.

As you can see, Ben loves STEM and shared that when he grows up he would like to explore a career in mathematics and linguistics. In his free time, Ben likes to cook (smoked ribs are his favorite) or talk with friends for hours as a discussion evolves around an English essay and the difference between fressen and essen. Both are German words related to eating!

When asked about his success, Ben thanked his mom and dad, sister, and (most importantly) his dogs for their unconditional love and support.

Congratulations, Benjamin Olson, for receiving December Student of the Month. We can't wait to see all of the amazing accomplishments coming your way in the future!
