

Wesley Bea
STUDENT OF THE MONTH
Mountain View High School
May 2023

Junior

Mountain View High School is proud to recognize Wesley Bea as our May 2023 Student of the Month.

Wesley is currently a junior at MVHS. Inside of school, his favorite classes are Math and Physics because he finds applying learned material to the real world especially interesting. Wesley is on the boards of numerous clubs. He is the incoming Vice President of Spartan Buddies, the current President of the Animal Assisted Happiness Club, and the incoming PR for National Honors Society. Wesley is also a part of Ambassadors at MVHS; he loves being able to show new students around and contribute to creating a positive environment that promotes mental well-being at our school.

Outside of school, Wesley volunteers every weekend to help children with special needs, as well as works at the Farmer's Market selling meat and produce. He enjoys both of these activities because of the fulfilling interactions they bring. Wesley is also a volunteer and ambassador at the non-profit Animal Assisted Happiness, and has over 500 hours of service with them.

In his free time, Wesley enjoys playing basketball, driving with his friends, eating, and traveling with his family. One of his favorite activities is going to the gym with his friends over the weekend and then going driving during sunset while blasting country music in the car.

Looking forward, Wesley hopes to pursue further education and a career in engineering. Congratulations, Wesley!
