Trustee Boundary Maps

Mountain View-Los Altos Union High School District

Presented by Ken Reynolds
President, SchoolWorks, Inc.

INTRODUCTION

This presentation illustrates several options for the District to draw maps with balanced populations for each of the trustee areas.

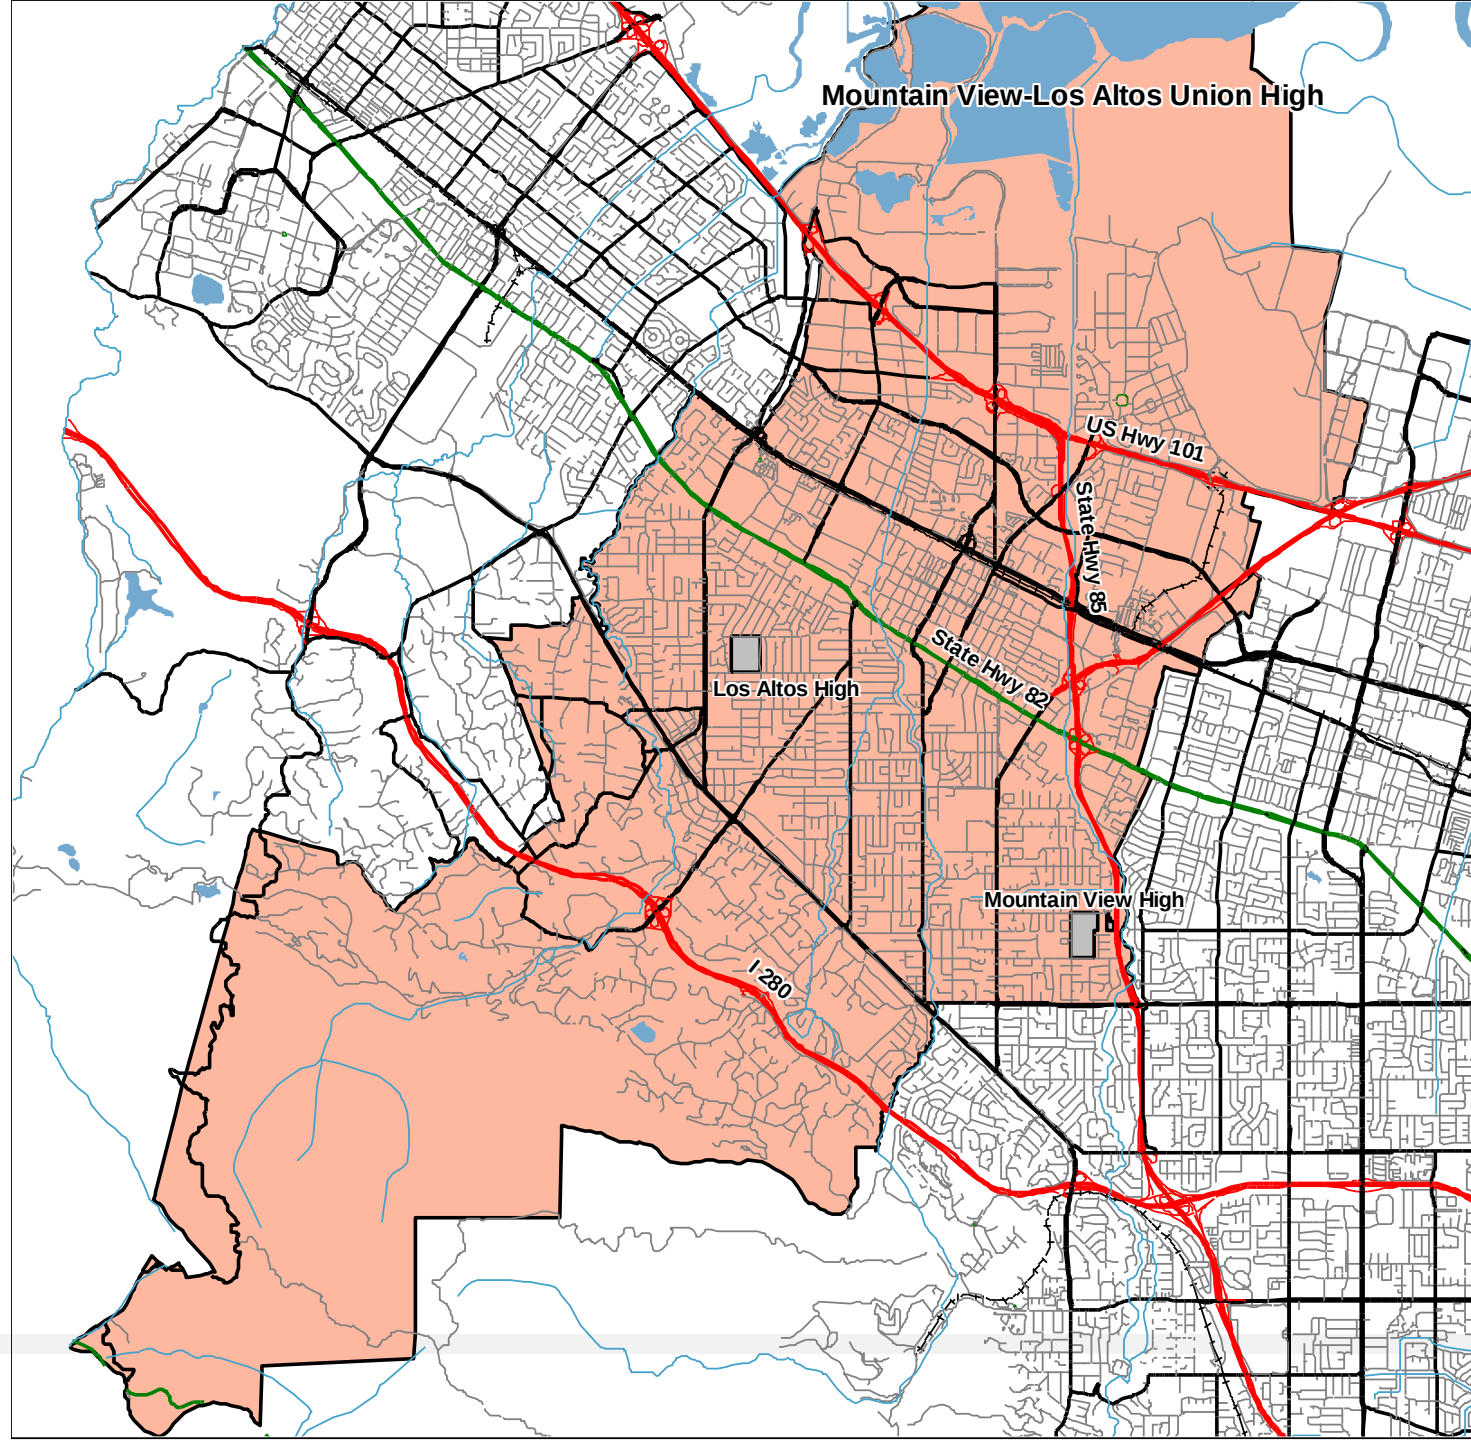

- **The general guidelines for drawing trustee boundaries include:**
 - **Equal Populations, Contiguous**
 - **Communities of Interest, Census designated places**
 - **Natural and artificial barriers**
 - **Geographical compactness**
- **For each scenario, there are maps showing the boundaries for each trustee area, a table showing the population in each trustee area and the variance from the ideal population. The peak deviation of the total population must be less than 10% for the maps to meet the legal requirements. Finally, details of the racial/ethnic populations are provided.**

Updates

This presentation includes the original maps (A, B, C) in addition to revised maps (A1, B1, C1).

This presentation also includes additional slides to show the current high school boundaries and students, middle school boundaries and elementary school boundaries.

Maps A1, B1 and C1 are modified version of maps A, B and C to account for adjustments to keep from splitting the communities of interest which are shown on slide 6.

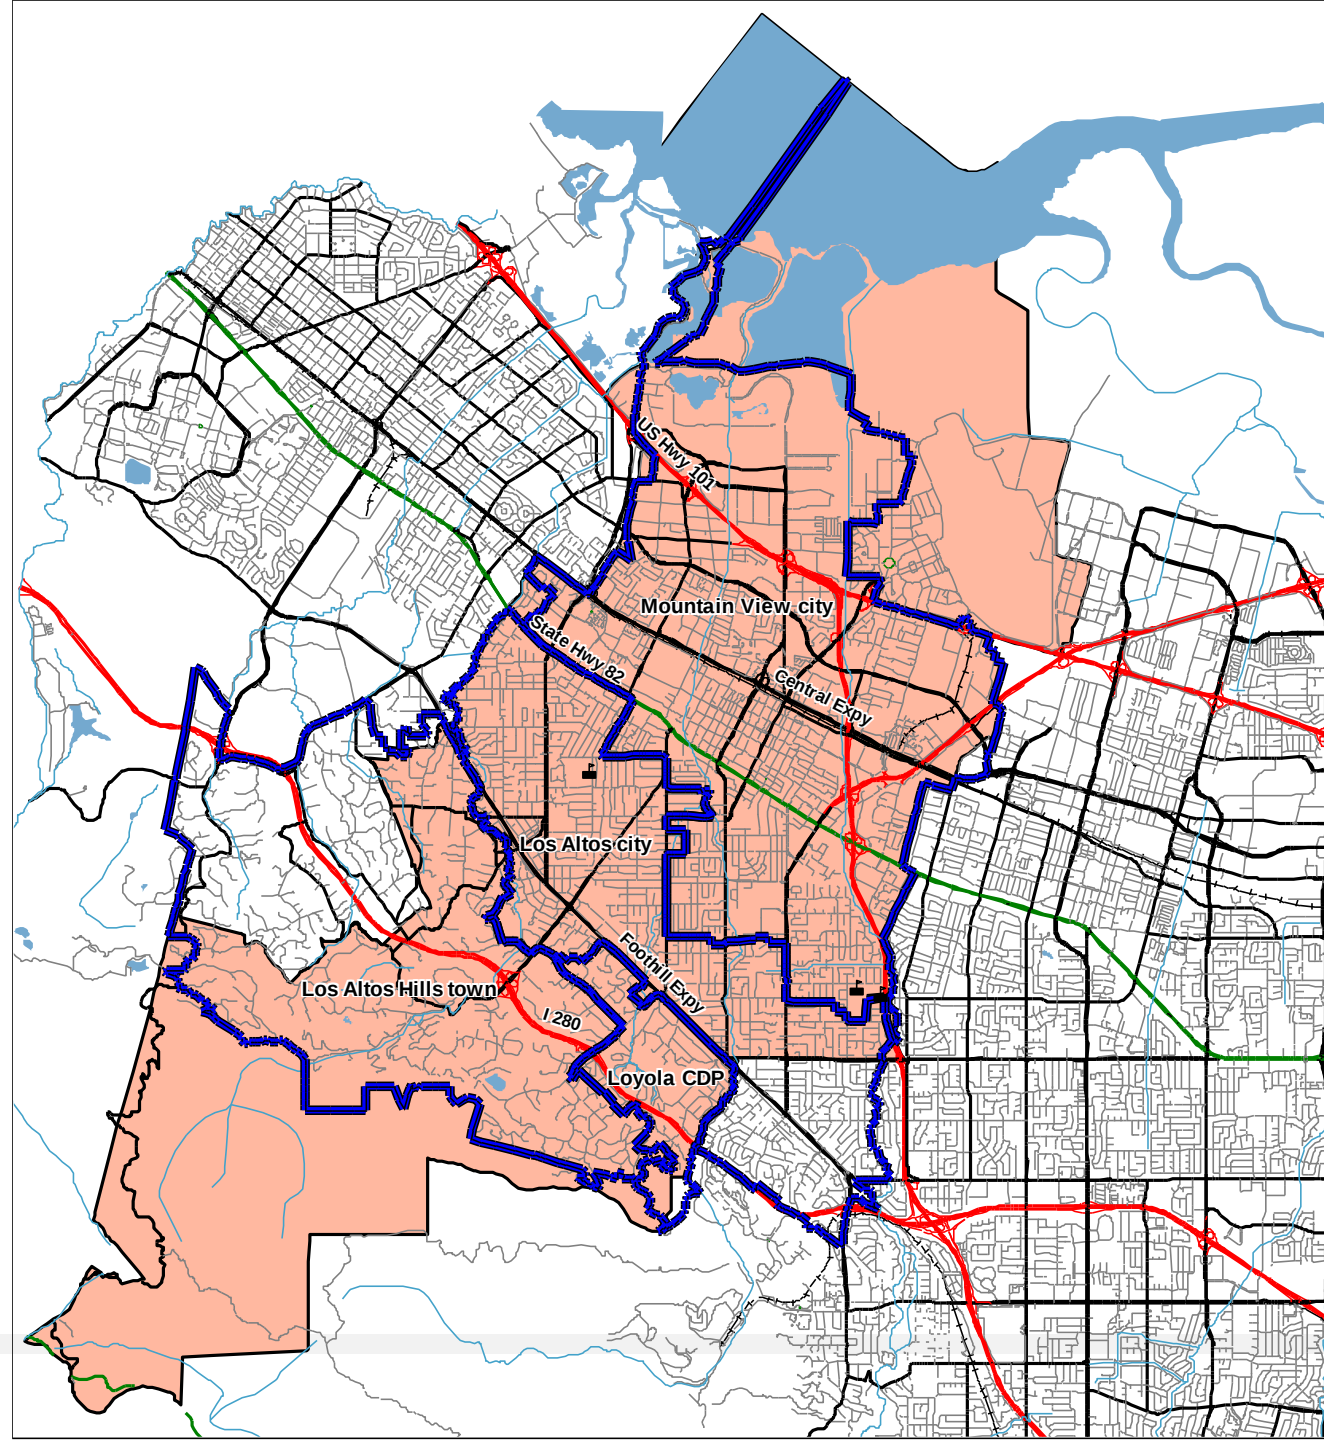

This map shows the District boundary area.

The 2020 Census data for the District included a total population of 117,723.

The District has five trustees.

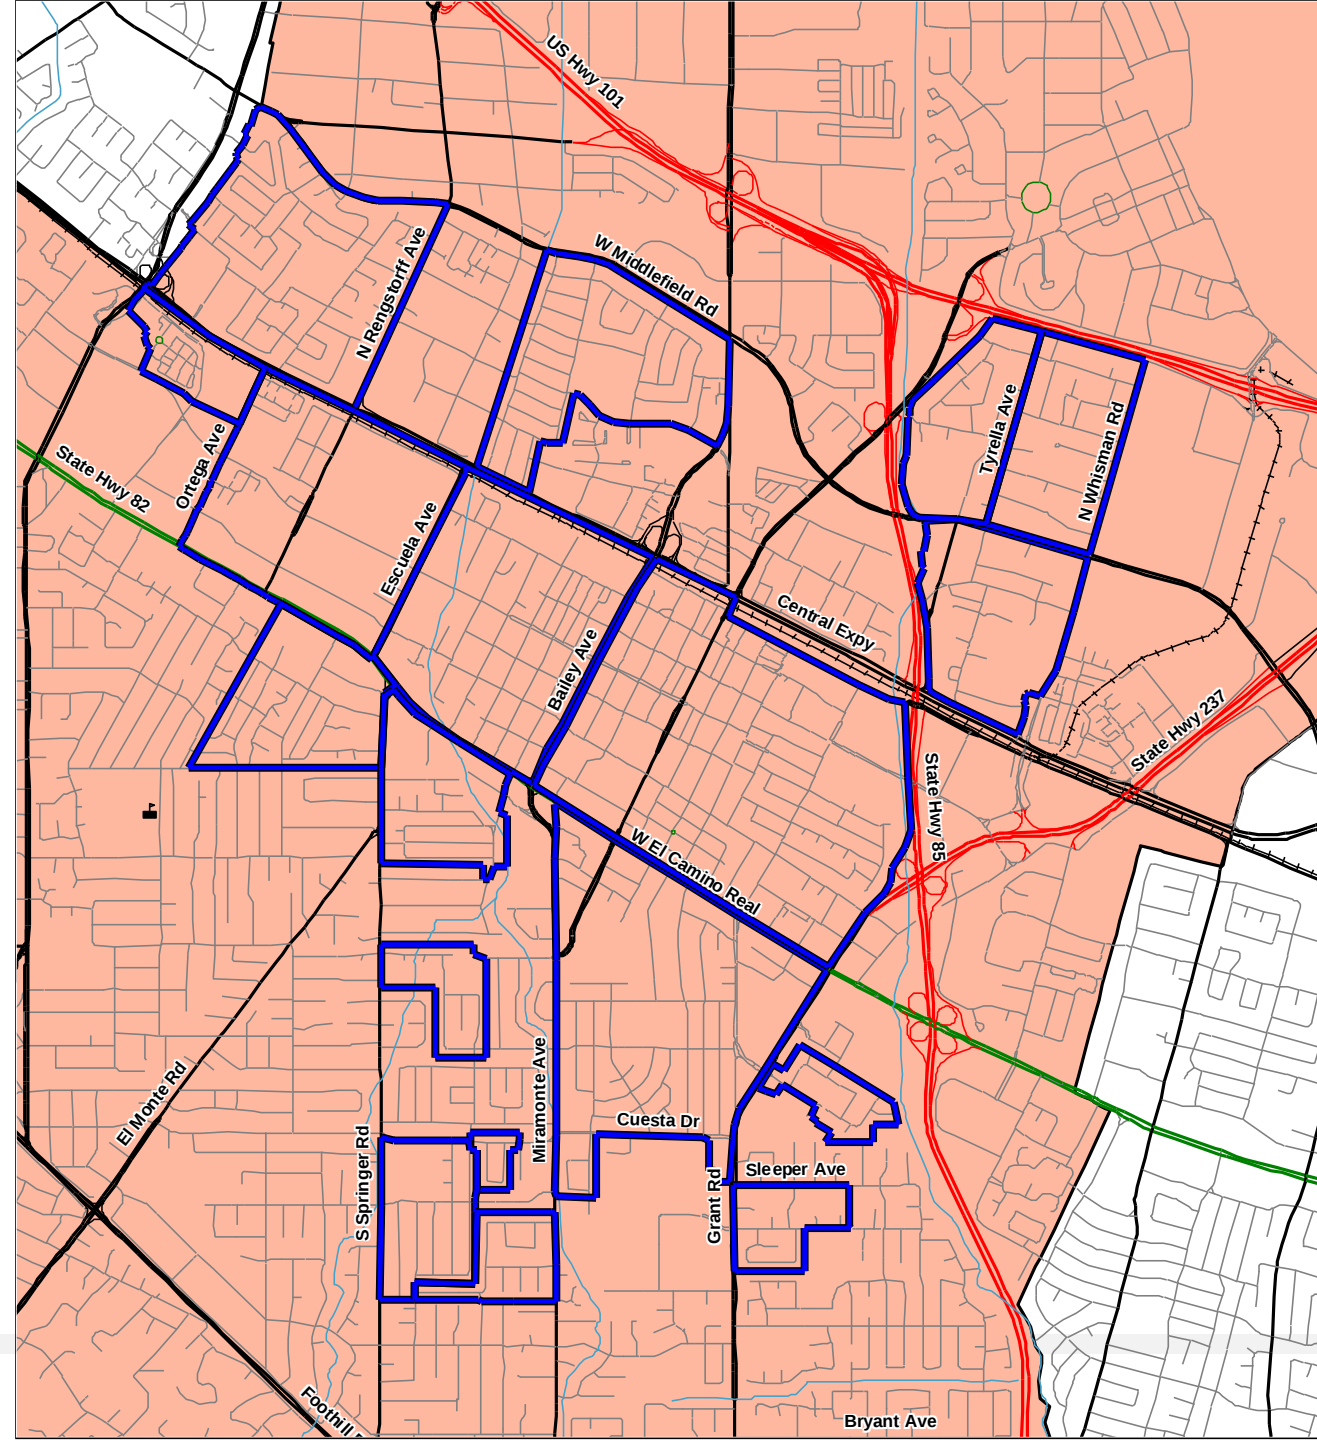

The goal is to create five boundaries, each with a population of 23,545.
